

UNITED STATES CONSULATE,

LIVERPOOL, 11TH OCTOBER, 1864.

SIR,

The Screw Steamer "LAUREL" of about 300 tons burthen, sailed from Liverpool on Sunday the 9th inst., with Captain Semmes, eight other Confederate Officers, and about one hundred men. She has six 68-pounder Guns, in cases in her hold, with Gun Carriages ready for mounting.

There is no doubt but this expedition has been fitted out for a Piratical Cruise against the United States, either in this or some other vessel. It is quite probable that there is some other vessel to which the Men and Guns are to be transferred.

The "LAUREL" cleared for Matamoras, via Havana and Nassau, but this does not indicate her destination.

Inform any United States Naval Officer who may be within your reach.

I annex a description of the "LAUREL".

I am SIR,

Very respectfully,

Your obedient Servant,

THOMAS H. DUDLEY,

Consul.

To the U. S.

member. She has an 80-pounder gun, in case in perils of life. On Christmas ready for mounting.

so that often it is necessary to wait for the new and better time to be translated. Let us consider the following case of a new and better time.

Type "L7URBT" desired for Mathematics, as Hansen and Neaseau put this goes
out in a single step designation.

Indicates that United States Postal Officer who may be mailing long letter.

I guess a description of the "P/URB".
